PETITION TO ASSIGN FILING DATE

This is a Petition to rescind the Notice of Incomplete Nonprovisional Application provided by Initial Patent Examination Division communication mailed December 29, 2003 and to assign the appropriate filing date of 08/01/2003, and refund the \$130.00 petition fee submitted herewith.

1. Applicant submits that 17 pages of drawings, including Figures 1 to 18, were properly included in the application referred to hereinabove, filed on 8/01/2003. By doing so, Applicant does not accept the charge that no drawings were provided, but submits said pages merely so that prosecution of the invention may proceed.
2. Receipt of said drawings by the PTO is indicated by the attached copy of the executed Acknowledgement of Receipt card, received in this office shortly after filing by Express Mail.
3. The Notice of Incomplete Nonprovisional Application was mailed on 12/29/03, nearly 5 months after receipt of the application by the PTO. Applicant respectfully submits that the drawings were somehow inadvertently misplaced in the PTO during this interval. Extensive searches in this office failed to provide a spare set of drawings.
4. It is evident from the filed specification by specific referrals that drawings were prepared; therefore, no new matter is being introduced by these replacement drawings.
5. Also presented as evidence is the acknowledgement card for the simultaneous PCT filing of this application. It is clear that drawings existed at the time to support the application.
6. The attached sheet contains a declaration by three separate persons attending to filing the application.

With the submission of the above evidence, Applicant respectfully requests this petition to be granted, and the original filing date to be assigned. The consequences of assigning a new date could be devastating to the Applicant.

Respectfully submitted,

William C. Fuess, #30,054
